UniMeet - Sprint 1 Report

Team UniMeet
02/02/2018

- **Actions to Stop Doing :**
  a. The team should stop using a locally-based database for the application.
- **Actions to Start Doing :**
  a. The team should start writing detailed commit messages in order to minimize the need to communicate the progress done when merging.
  b. The team should start using a shared database that automatically updates changes on tables and data.
  c. The team should start using Bootstrap more for front-end development.
- **Actions to Keep Doing :**
  a. The team should keep communicating on Slack their questions and concerns as well as use the platform for polls and other issues.
  b. The team should keep trying their best to be punctual for team meetings.
- **Work Completed :**
  a. As a product owner, I want wireframes for all the pages of the app, so that I can have a clear idea of what the final product is going to look like and how to organize and distribute the work.
  b. As a product owner, I want our team to be familiar with the technologies used so that we can start the development process efficiently.
  c. As a user, I want to be able to register to the platform so that I can join the platform.
  d. As a product owner, I want to have a login page so that users can access their accounts.
  e. As a database engineer, I need a database design for each page so that I know which kind of database I need to implement.

- **Work Not Completed :**
  None

Work Completion Rate :
1. **User Stories Completed :** 5
2. **Ideal Work Hours Completed :** 66
3. **Days in Sprint :** 14
4. **User Stories Per Day :** 0.36
5. **Ideal Work Hours Per Day :** 4.7

DATE	PROJECTED	ACTUAL
1-24	1	0
1-25	5	3
1-26	9	6
1-27	13	10
1-28	17	14
1-29	21	15
1-30	25	22
1-31	29	25
2-1	33	30
2-2	37	35
